

K-LOVE radio plays a vital role in my daily Christian walk. I would not listen to any other talk show or music on the radio if KLOVE did not exist. I would simply listen to my cd's. So would many of my family and friends. We do not want to listen to the junk that is called "music entertainment" that is available on other radio stations. KLOVE is the most positive radio station I have ever encountered. Without that available to the public would be detrimental. I willingly pay \$ to listen to the KLOVE station in my area. It is much more enlightening to listen to something positive and hopeful than whatever else is available on those other stations. Please know that much of what we listen to is engrained into our minds and the minds of our children. Consider the garbage that is out there in the lyrics of songs on other radio stations. A scary thought. Without KLOVE and their positive, encouraging music and comments this world will be a scary place. I feel it is vitally important not to displace the KLOVE radio stations with LPFM broadcasting programs.

Thank you.
